	5.	An instruction course for officers in charge of interior duty which was conducted at the installation by Major Krusbert (fnu) was still under way. About half of the students had, however, gradually been called to their units.	
25X1X	6.	Source learned that an officer named Kirchner (fnu) was made commanding officer of the division stationed in Karpin. Source's informant stated that another officer was executed because of an attempt of Kirchner's life. The division was scheduled to soon move to the Czech border. 5	
	7,	From 6 May to 5 June 1953, the Fuesilier Kaserne in Rostock was occupied by about 1,800 KVF troops who, according to a railroad man, came from Dessau. Sixty percent were officers and 40 percent were personnel. Groups of from 8 to 10 unarmed soldiers carrying baggage arrived during the period of observation the troops were claret service color. There was only little training activity.	
	8.	At 7:30 p.m. on 5 June 1953, 8 ZIS-3 model-42, 76-mm field guns and 6 mortars of about 80-mm caliber were unloaded at the freight station by KVP and were subsequently taken to the Fuesilier Kaserne.2

23X IA	1.	omment. In April and May 1953, a so-called infantry unit subordinate to TV 5000 in Schwerin was activated in Rostock.	
25X1		CO IV 7000 IN Schwerin was activated in hostock.	
		The infantry unit in Rostock consisted of personnel detached from the cadre units in Dessau-Kochstedt and Burg. Claret is the service color of the KVP infantry. It is doubted that 60 percent of the troops should be officers. The strength of about 1,800 soldiers may be corrected.	25X rect
25X1A	2,	Comment. Colonel Bleck is stationed in Schwerin as chief of TV 5000. Lieutenant Colonel Wildner was commanding officer of cadre unit in Dessau-Kochstedt until April 1953. As he is referred to ascommanding officer of the division, there is reason for believing that the infantry unit in Rostock is a cadre unit of a division.	
25X1A	3.	attached to the infantry unit in Rostock. This may also be true with the other units of TV 5000 in Sternbuchholz and in the Klietz-Premnitz-Rathenow area. The infantry units probably also included signal units, engineer units and recommaissance units of the dissolved cadre units. Each Territorial verwalthas, in addition to the three infantry units, I artillery regiment, I AAA regiment and I tank regiment. The artillery regiment of TV 5000 is located in Glovern, the AAA regiment in Kirchmoeser, and the tank regiment in Burg. The	ung 25X1
